

Brief information to Brandförsäkringsverket's foreign policyholders

Third partial repayment from Brandförsäkringsverket

Dear Policyholder,

Brandförsäkringsverket is an old Swedish insurance company, which was established in 1782. Today we have a considerable number of old insurance policies called Allframtidförsäkring for fire damage, on certain properties in Sweden and some in Finland. On May 28 2008, according to our register, you were the owner of property insured with Brandförsäkringsverket. This date is our reconciliation day of the ownership of the property and of the insurance policy with Brandförsäkringsverket.

Brandförsäkringsverket is closing down and all assets will be converted into cash and repaid to our policyholders.

The repayments will be in proportion to the once paid insurance premium, mostly paid before 1955. The closing down procedure started in 2008 and will take about three years. The first and second partial repayments have already been transferred to your bank account, during 2009 and 2010.

This information now regards **the 3rd partial repayment**, which will start in December 2010.

Enclosed please find an information letter in Swedish and a form called SVARSTALONG for you to fill in and return to us at Brandförsäkringsverket.

Without this form confirmed, signed and returned to us, we can not transfer the 3rd repayment to your bank account. The repayment amount in SEK is printed on the SVARSTALONG.

Please confirm your name and current address on the SVARSTALONG and check that the pre-printed **bank account number** (IBAN/BIC or a Swedish bank account number) is still valid.

Sign the form and return it by mail to us. Please use the reply-envelope.

Observe, that **all owners** of the specified property, insured in Brandförsäkringsverket, must sign the form.

We look forward to your answer as soon as possible.
